DENVER, April 22.—The American National bank falled to open this morning. The following advantage of the following and t morning. The following circular was

"This bank has closed its doors by a vote of its directors, and it is in my hands as representative of the gov-ZEPH P. HILL." ernment. The fallure does not come as a sur-

prise, nor does it indicate any lack of confidence in the general business situation. The condition of the bank has been weak a long time because of internal dissensions

The retirement from the directory and the sale of the stock of several and the sale of the stock of several wealthy men materially reduced the business of the bank. At the last re-port made at the close of business March 6, the total deposits were \$1,-471.851; loans and discounts, \$1,126,251;

471,951; joans and discounts, \$1,126,251; cash on hand, \$282,255; capital stock. \$500,000; surplus, \$150,000.

The assets amount to \$2,245,171 and it is chilmed there will be but little trouble in realizing on them. The following statement was taken from the books of tr American National bank this morning: Resources, cash and exchange, \$70,300; tills receivable. \$1,073,000; stocks and securities, \$255,... \$1,078,000; stocks and securities, \$265,

\$1,078,000; stocks and securities, \$250,450; real estate, \$136,530; excess on circulation, \$22,000; total \$1,572,232.

Liabilities—Individual deposits, \$530,712; isomand deposits, \$49,719; time deposits, \$66,275; due other hanks, \$97,025; borrowed money, \$142,000; total, \$886,231.

A cotaplistion of this statement with that furnished in March shows that the bank's deposits and reserve declined very rapidly. Over \$200,000 were withdrawn; on Monday and Tuesday of this week, and there being only \$70,000 left, the directors decided that the best thing to do was to close the bank. best thing to do was to close the bank. Besides the resources above there Besides the resources above there are notes for \$500,000 set aside for the recent reduction of the capital stock from a million to \$500,000, and a fifth

from a million to \$500,000, and a lifth interest in a strong mine at Victor.

The president of the bank is John R. Hanna. The directorate consists of some of the leading men of Denver, including Fine P. Brnest, William and Moritz Rarth, Mitchell Benedict, George W. Ballantine, T. J. O'Donnell.

In connectuence of the failure a run has been started on the National Bank of Company.

In connequence of the failure a run has been started on the National Bank of Commerce.

John R. Hanna, president, and Howard Evans, cashler of the American National bank, were arrested late this aftermone on warrants from Justice Chapman's court charging them with receiving deposits after the bank was known to be in a failing condition. Both were released on bonds.

The run on the Bank of Commerce ended about noon, all demands were promptly met. At the other banks the deposits exceeded the withdrawals.

President John R. Hanna of the American National bank, in a published statement over his signature, says:

The shrinking of deposits and but comparative few new customers to replenish the loss, and the inability to collect our bills, resulted in our inability to collect our bills, resulte

It is now known that the force of hostile natives which assembled about Buluwayo after the outbreak of the rebellion was much greater than was at first supposed. The highest estimate placed the number of the besieging force at 15,000, but although a large number of natives, said to number about 5,000 warriors, is known to have struck camp and started southward in the direction which the relief forces from Mafeking must follow, it is estimated that fully 15,000 hostiles are still in the vicinity of the beleagured town. The natives, when they first took up positions about Buluwayo, formed a half circle northward, but gradually this formation has been contracted. gradually this formation has been con-tracted and the Matabele army is now only three miles, or within easy strik-ing distance on a dark night espec-ially, of the 3,000 white people in the town, of which only about 600 can be classed as fighting men. The Matabeles seem to have suddenly learned the art of approaching a town with defenses, for with each move forward, with each tightening of the half circle around Buluwayo, they have thrown up earthworks. Indeed, the skill they are manifesting in these operations is pointed out as another proof that they are being directed by Boer strategists.

IT IS NOT JUSTIFIED. LONDON, April 22.-The Daily News this morning says it understands the alarmist statement regarding the status of the Venezuela dispute made in a Washington dispatch to the Times, is not justified by the actual state of the case. "There has been delay in the negotiations," the Daily News continues, "and if the Times' Washington dispatch was inspired by the United States government, it in-dicates not entirely unreasonable im-patience. But there is every reason to believe the negotiations will be brought to a satisfactory conclusion." status of the Venezuela dispute made brought to a satisfactory conclusion.

THE LUMBER SHOVERS CLEVELAND, April 22.-Extra police were massed at the central police station in readiness for expected trouble on the lumber dock between union and non-union lumber shovers. Each officer was provided with clubs

On the docks a big crowd of union and ton-union men were gathered awaiting the arrival of the first vessel of the lumber fleet.

The police soon scattered the crowd and both the union and non-union men and both the union and non-union men were ordered away. Five men were arrested, including the leaders of both sides. About twenty men were cut and bruised, seven being counted lying insensible on the ground just as the fight terminated with the arrival of the police. None of the wounds inflicted are dangerous. Apparently all the non-union men were armed. Another effort will be made to unload the vessel tomorrow.
